#### Source:

The habitat data were derived from 1:12,000 scale color-infrared photography shown here at 1:24,000 scale. Preconstruction color-infrared photography was obtained on January 9, 1996. Habitat classes are based on "Classification of Wetlands and Deepwater Habitats of the United States" (Cowardin and others, 1979, FWS/OBS - 79/31) as modified for the National Wetlands Inventory mapping conventions.

Backdrop CIR photography acquired on January 9, 1996
