

Data Information:

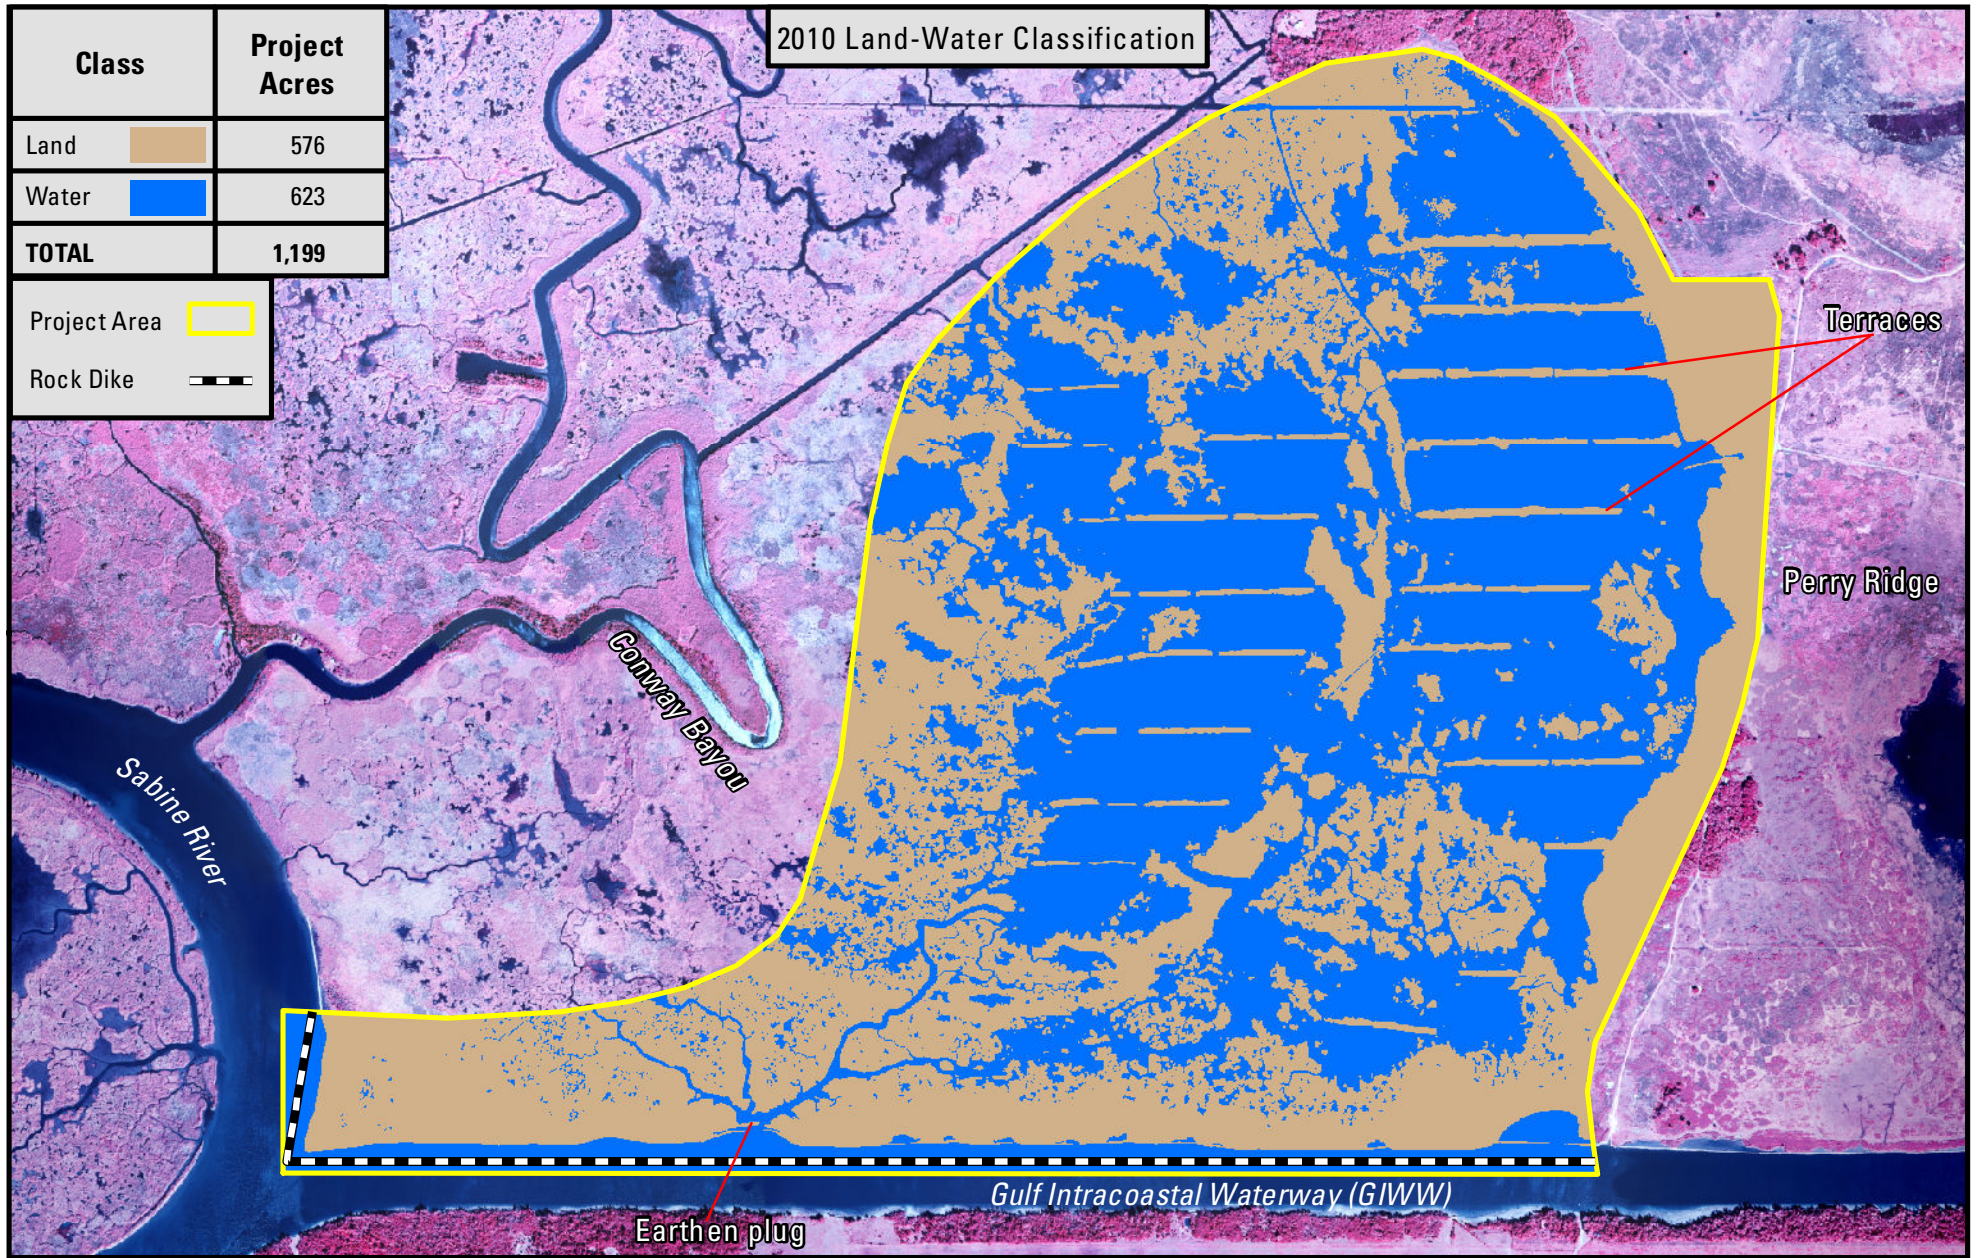

The land-water data were derived from 1:12,000 scale, color infrared aerial photography obtained on October 25, 2005 and again on November 5, 2010. All areas characterized by emergent vegetation, wetland forest, scrub-shrub, and upland were classified as land while open water, mud flats, and aquatic beds were classified as water.

| Class | Project Acres | Project Area |
|--------------|---------------|--------------|
| Land | 566 | Project Area |
| Water | 633 | Rock Dike |
| TOTAL | 1,199 | |

| Class | Project Acres |
