1. New Biodiversity Online Secondary Module

Exploring Environmental Issues: Biodiversity is a new addition to the PLT collection that uses biodiversity as a window through which secondary students investigate the environment. Educators and students get a broader view of concepts and larger connections - not just biological, but political, cultural, ethical, and economic as well. Educators are permitted to use any of the online materials on the PLT Website. Visit http://www.plt.org/cms/pages/36_124_120.html.

2. Secrets of the Sequence Videos Series

The Center for Life Sciences Education at Virginia Commonwealth University presents The Secrets of the Sequence Video Series for teachers to incorporate advances in the life sciences into their classrooms. Each of the 50 short (8-10 minute) videos comes with a lesson plan and activities. Visit http://www.pubinfo.vcu.edu/secretsofthesequence.

3. LANDSAT Image Viewer

The EarthNow! Landsat Image Viewer provides a LIVE feed of images from the Landsat 5 and Landsat 7 satellites. These images are used to monitor changes in the Earth’s land surface. The Help page explains how to use EarthNow! and describes how it provides information to you. Visit the EarthNow! Site at http://earthnow.usgs.gov.

4. Earth Exploration Toolbook – learning about precipitation and streamflow

The Earth Exploration Toolbook has a chapter on “Investigating the Precipitation-Streamflow relationship. “In this chapter students explore several key aspects of the water cycle as they investigate the relationship between precipitation and streamflow. Concepts such as the duration and intensity of the precipitation, surface runoff, evaporation, transpiration, soil porosity, and the slope of the ground emerge as significant factors in the investigation.” Visit http://serc.carleton.edu/eet/module_discharge/index.html.
