

DEMONSTRATION PROJECTS

DEMONSTRATION PROJECTS

Project Number	Project Proposals
DEMO-01	Hay Bale Demo
DEMO-02	Reconnection of Hydrologically Isolated Wetlands
DEMO-03	Marsh Creation Project Containment Dike Degradation & Gapping
DEMO-04	CREPS: Coastal Restoration & Energy Production System
DEMO-05	Bioengineering of Shorelines and Canal Banks using Live Stakes
DEMO-06	Research to Assess LA Native Plant Efficiency for Bioengineering Applications
DEMO-07	Utilization of Natural Gas Power for Dredging & Placement

DEMO-01

Hay Bale Demo

DEMO-02

Reconnection of Hydrologically Isolated Wetlands

DEMO-03

**Marsh Creation Project Containment Dike Degradation &
Gapping**

DEMO-04

CREPS: Coastal Restoration & Energy Production System

DEMO-05

**Bioengineering of Shorelines and Canal Banks using Live
Stakes**

DEMO-06

**Research to Assess LA Native Plant Efficiency for
Bioengineering Applications**

DEMO-07

Utilization of Natural Gas Power for Dredging & Placement
